

Design: Stephan Copeland

360 was designed by Stephan Copeland, who has been involved with desk lamp innovation for 25 years. He is particularly concerned about the interaction between lamp and user: "A successful desk lamp means close user proximity and an agile interaction. 360 is designed to glide when directed and be a peaceful form presence to live with," he says. Born and raised in Montreal, Canada, Stephan Copeland has worked as a freelance designer since 1989 when he launched Copeland Studio in Los Angeles. He is currently based in Merion, Pennsylvania.

If the external flexible cable or cord of this luminaire is damaged, it shall be exclusively replaced by the manufacturer or his service agent or a similar qualified person in order to avoid a hazard.

Si le câble ou le fil flexible externe de ce luminaire est endommagé, seuls le fabricant, son agent ou un technicien approuvé par l'usine sont autorisés à le remplacer afin d'éviter tout danger.

Si el exterior del cable flexible o el cable de esta lampara está dañado, se sustituye exclusivamente por el fabricante, su agente de servicio o similar persona cualificada con el fin de evitar un peligro.

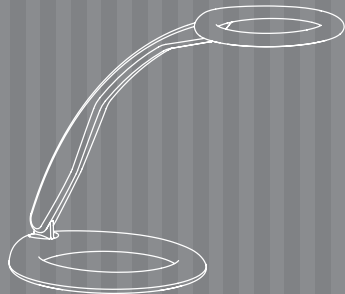

Hvis lampens ledning skades skal den kun erstattes av produsent, forhandler eller kvalifisert personell for å unngå fare.

Om lampans ledning skadas skall den ersättas av producent eller av auktoriserad person för att undgå fara.
